

page. Thus, because the improper specification is being referenced by the examiner in making the election requirement, applicant obviously cannot respond thereto.

The CORRECT application is present in PAIR, and is (correctly it is believed) identified as "Documents submitted with 371 Applications." The top of each page thereof sets out the correct identifying numbers ("WO 2004/038888" & "PCT/GB2003/004654").

ADDITIONAL RELIEF REQUESTED.

- 1) Obviously, the "Specification", "Claims", "Abstract", and "Drawings" documents in PAIR should be combined and correctly identified as "Foreign Reference" since it is an IDS reference.
- 2) The published application of the present application (US 2006/0061323) utilized the wrong specification, claims, abstract and drawings. Thus, republication of the correct application, and withdrawal of the previous wrong publication is requested.

Favorable action is respectfully solicited.

Date: December 7, 2007

Respectfully submitted,
